

JSAP International Members Chapter (JIMeC) Networking Forum

JSAP Autumn Meeting, Wednesday 6th September 2017

Fukuoka International Congress Center, 2-1 Sekijomachi, Hakata-ku, Fukuoka 812-0032

THEME: 'Career paths for overseas researchers based in Japan'

Guest speaker: Futao HUANG

Research Institute for Higher Education, Hiroshima University

"International faculty at Japanese universities and colleges:

Preliminary findings from the 2017 national survey"

This year's JSAP International Members Chapter (JIMeC) networking event will be an informal gathering to discuss careers paths for overseas researchers based in Japan. The evening will be an open forum with speakers including Professor Futao Huang, post-doctoral students, tenure track researchers, and tenured full professors, who will share their experiences of studying and working in Japan. The evening will cover first hand insights into effective ways of finding full time employment as researchers at Japanese companies and academic institutes and well as other opportunities in Japan in careers not directly related to research and teaching. The participants will include representatives from international scientific journals providing careers information on a global scale.

The JIMeC gathering is an excellent opportunity for overseas researchers and their colleagues to network in a relaxed setting over buffet refreshments. The forum is free of charge. Join the JIMeC network!

Date: 6 September 2017

Time: 17:30 to 19:30

**Place: Room A 506,
Fukuoka International Congress Center**

Free buffet refreshments

Organizers

JSAP International Members Chapter (JIMeC) planning committee
