

JSAP International Members Chapter (JIMeC) Networking Forum

JSAP Spring Meeting, 19 March 2018

Nishi Waseda Campus, Waseda University, Tokyo.

THEME: Insights into effective strategies for obtaining research funding

Speakers will include Adarsh Sandhu, University of Electro-Communications, Tokyo.

This year's JSAP International Members Chapter (JIMeC) networking event will be an informal gathering to discuss how to successfully apply for research funding as overseas researchers in Japan. Adarsh Sandhu, professor at UEC, Tokyo, will set the scene, by sharing his experiences covering more 30 years of living and working in Japan on how to successfully apply for funding from a wide range of sources including KAKKEN, JST, AMED, and industry (ZAIDAN). The remainder of the evening will be an open discussion about the trials and tribulations of procuring research funding, covering topics including difficulties in writing applications in Japanese.

JIMeC is an excellent opportunity for overseas researchers and their colleagues to network in an informal atmosphere. After the meeting, everyone is invited to attend the President's Reception for Overseas Participants, that starts at 19:00.

Join the JIMeC network!

Date: 19 March 2018

Time: 17:00 to 18:30

Place:

Building #54, Room A204

JIMEC gathering at the JSAP Fukuoka, Sept 2017.
